

The MGEX Trading Floor

*Historic space.
Rare opportunity.*

A rare opportunity has presented itself. The historic Minneapolis Grain Exchange trading floor is now available for leasing.

Formerly home to open outcry trading, the MGEX trading floor is a part of Minnesota history. Wheat, corn, soybeans, and other commodities were traded here for over 100 years.

For the first time in its history, this classic 16,360 square foot area is available to the public. Ideally the trading floor will be rented by a distinctive tenant who will preserve the history and beauty of this treasured space.

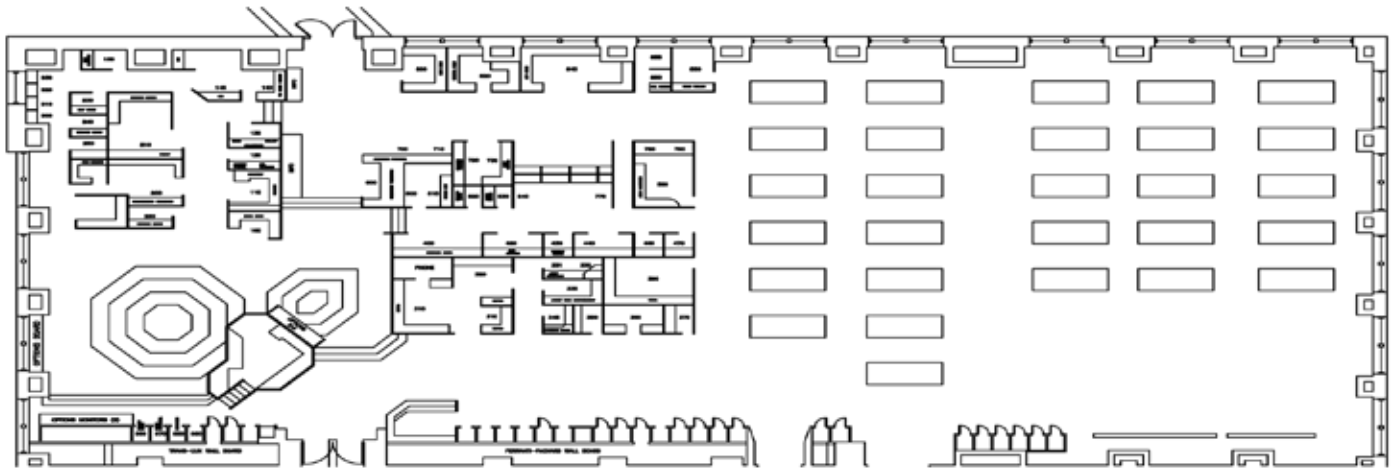

For layouts and further information on the 4th Floor of the Main Building and the trading floor, see the back side of this sheet.
